

**Agile** *adj.* Having the power of quick motion, nimble.

**Agility** *n.* Superior slow speed maneuverability and safety through advanced aerodynamics, **Katmai**.

**A CIVILIZED AIRPLANE FOR AN UNCIVILIZED WORLD**

*Give us a call to schedule your demonstration flight or request a Katmai video brochure.*

**T**hrough advanced aerodynamics the Katmai delivers performance, maneuverability, and safety unavailable in other aircraft. The Katmai cruises at speeds up to 150 knots, loiters in a safe, flat attitude at 50 knots, and uses only 310 feet to take off or land with its 31 knot stall speed. In addition, the Katmai's eight foot long cargo area allows you to take along a complete camp site for that weekend adventure.
